Keep Cherry Gardens Beautiful

Those of us that have been around for a while will remember the many adverts and promotions on the TV and radio about keeping South Australia beautiful. KESAB was founded back in 1966 and they were at the front line in encouraging South Australians to keep our state beautiful by not littering, actively keeping our environment clean and tidy and participating in a range of projects and activities designed to enhance our State.

I note now that KESAB has programs that are studied and emulated around the world, including Clean Site, (Building and Construction Best Practice), Litter Less (schools) and Butt Free Australia (cigarette butt) programs.

I recollect being in China many years ago and noting how much rubbish there was everywhere and asking the locals that I was meeting why there was so much litter. They tried to explain that the mindset there was that you only care about your own personal space and public areas were of no concern to anyone. There were plenty of people whose job it was to clean up the rubbish so why worry. To reinforce this they just threw some rubbish out of the car window and even under strong protests from me they would not stop and pick up the rubbish or try to understand my argument.

I do now wonder whether many South Australians are starting to get lazy and adopt the Chinese mindset of it being someone else's problem and have forgotten the message about not littering. I wonder whether we all need a reminder to put rubbish in the bins and not to discard it out of the window of the car as you are driving along.

I have started walking along Cherry Gardens Road on a more frequent basis and I am amazed at how much litter there is along the road verges. It staggers me that I see many people walking every day but no-one appears to pick up any of the rubbish or if they do then every car that drives through Cherry must be littering. I have collected a lot of rubbish on my walks but the old adage that many "hands make light work" comes about here and if every resident just kept the road verge at the front of their property clean and tidy, Cherry Gardens would be better off for it.

I would encourage everyone to take a little bit of time to check out the front of their place from time to time and pick up any litter and if you are out for a walk then take a bag with you and collect any rubbish that you find. I doubt we will be able to stop those people that drive through our lovely suburb from littering without there being a change in mind set however we can make sure we "KEEP CHERRY GARDENS BEAUTIFUL".

**NOTE: Clean Up Australia Day is on
Sunday 2nd March 2014**

CHRISTMAS BBQ REPORT

Thankfully the thunderstorms held off for our annual Cherry Chatter Christmas Picnic on 8th December. The Committee would like to thank members of the community for their attendance and support of this annual event. We would also like to thank the CFS for helping set up and clean up as well as cooking the BBQ and delivering Father Christmas, the Cherry Gardens Uniting Church for organising Santa's helpers and also Lyle our Mr. Music, supplying the PA and background Christmas music, Amy Watton for expertly organising children's races and Di for giving up her Sunday afternoon to run the Rec Ground bar. The children thoroughly enjoyed the day welcoming Father Christmas as he arrived on our CFS truck and we were lucky enough to also have a visit from Smokey the Bear. As a result of the donations received we will be able to donate \$500 to the Philippines Disaster through the Red Cross. Thanks again to everyone involved, we hope to see you all again next year.

RAINFALL REPORT NOVEMBER 2013

Rainfall for November 2013	16.6
Rainfall for November 2012	17.2
Avg Rainfall for November	49.5
Rainfall to the end of Nov 2013	861.2
Rainfall to the end of Nov 2012	910.6
Avg Rainfall to the end of Nov	880.1

Speed Limits (...the story continues)

Our sitting member for Fisher has received a response from Council. I won't go into the nitty gritty here so far as to say that any change of speed limits appears an unlikely prospect. Many of you probably know my thoughts about lowering speed limits, suffice to say I don't support the lowering of speed limits unless there is an obvious and recognisable need. So generally, I become exasperated over governments' moves to generally lower limits and welcome the RAA's recent move to lobby for the raising of speed limits that were lowered broad brush in some near city regional areas. I digress though. So what I do support and feel there is a groundswell of support coming from within our local community is for the lowering of the Ackland Hill Road speed limit immediately adjacent the Cherry Gardens Ironbank Recreation Ground. This would be a simple extension of the 60km/h zone presently on Cherry Gardens Road to take in the Ackland Hill Road intersection and the few hundred metres either side. Dr Such has kindly written again to Council seeking clarifications to some flawed information that they seem to have in hand about how busy this area has become and how often the rec ground is frequented, both for practices during the week and weekend matches. He is awaiting a further response. But I think it is also time for the community to stand up. Really the support for the survey was very poor. If you really do want change let's concentrate on this one area and see if we can make change happen. We know that support is low for general lowering of the limits, but in this area there really is a need. If you want change let us know. If you want to be even more proactive write to Council (Mr Mark Dowd CEO or Mayor Lorraine Rosenberg). Remember that minority opinion should not rule, but if there is a clear and concerted effort action can happen. Perhaps the sporting clubs that use the rec ground could show interest too as they have a certain duty of care to their players and supporters. So will anyone stand up? Will I be able to write to you all next year congratulating you on the effort made?

Tim Geue

PLEASE TAKE NOTE:-

- *The opinions and articles printed in the Cherry Chatter are not necessarily shared by all members of the Cherry Chatter Committee.*
- *NOTE – The Cherry Chatter Committee will not approve any controversial article for publishing unless the name and address of the author is supplied.*

CHERRY CHATTER MEETING

**There will be no January meeting,
THEREFORE no February edition.**

The next meeting will be held on Wednesday 12th of February at 8 p.m. at the home of Marg and Peter Macks

Articles to be received at least 2 days before.

COMMUNITY NEWS

Remember to check out what's on at the Coromandel Community Centre by visiting their website:

www.communitywebs.org/CoromandelCommunityCentre/

...NEW COMMITTEE MEMBER REQUIRED...

The committee is URGENTLY seeking the services of a dedicated local person who would like to take over the reins of newsletter co-ordinator and become involved in a very worthwhile and fulfilling position on the committee.

Desktop publishing experience would be an advantage but is not absolutely necessary. A computer is essential and training and guidance will be available.

We encourage someone new onto the committee so if you would like to do some creative, fulfilling community work which requires around 6 – 8 hours per month, please phone a committee member to discuss further details.

MIDDLETON FAMILY REUNION

On Sunday afternoon, 24 November 2013, over 50 descendants of the 1836 *HMS Buffalo* pioneers, Joseph and Elizabeth Middleton, met at Cherry Gardens Uniting Church for the dedication of the newly restored headstones of their forebears, Joseph and Elizabeth.

Church Council Chairman, Dr Alan Dube, welcomed the descendants, which included the Uniting Church Moderator for South Australia, Dr Deidre Palmer, who is also a Middleton descendant. She spoke at the service on the topic, *By Faith*, and then dedicated the restored headstones outside the church.

The headstone restoration was done by Heritage Stone Restoration and the work paid for by the family, with help from an Onkaparinga Council Heritage Incentive Grant. The council was represented at the afternoon by Councillor Darryl Parslow.

After a group photo, the Middleton descendants and visitors were well catered for to an afternoon tea by

Middleton Reunion cont... Cherry Gardens Uniting Church members. Both family and church members are delighted that the headstones of this pioneer family have now been restored for many years to come.

OVER THE STABLE DOOR with Hamish

Greetings Fellow Equines and Horse Owners!

Whew! Hay is all baled and shedded without any major dramas! Such a stressful time of year for my owners. Anyway, all done now and hopefully it will last the full twelve months. Usually there is enough such that no outside hay needs to be brought into the property. This in turn cuts down on any new introduced plants and weeds.

As all property owners are aware, weeds are an ongoing issue, so keeping paddocks well covered in grasses helps to provide competition against those pesky weeds. (More about this later). During the summer use your stock to keep grass growth down, or if this is not enough, then either mow it or get it slashed. The risk of fire is ever present in the hills during summer, so whatever you can do to reduce inflammable material on your property is beneficial. It is a fine balance between keeping up the ground cover and keeping the grass low enough to reduce hazards. As we equines tend to be creatures of habit, such as congregating in nice shady spots under trees or standing together or standing where we can see the next nearest horse, bare patches of ground will appear where we do this. Where there are bare areas, weeds will grow! They are so opportunistic – a bare patch provides no competition and so weeds will flourish. It is best not to let things get to this stage. Rather fence these areas off to change the standing/grazing habit and spread manure here or plant some seeds. Kikyuyu will do well in this situation if you are able to keep it watered during the warmer months. After that it generally will look after itself. Once it becomes established, it also provides good competition against weeds, as it is a vigorous grower itself, providing a strong, tough mat where horses move around. In the more northern states such as northern NSW and Queensland, this tough grass can be a problem, as it can prevent the absorption of calcium. Here, where it usually is in a paddock with a mixture of grasses such as perennial rye, cocksfoot, phylaris and clover to name a few, the problem doesn't appear to arise. Keeping it short and preventing long growth also helps.

I wish you all a safe and fire-free summer and food-full festive season!

Your trusty equine Hamish.

2014 GARDEN CLUB PROGRAMME

MON 10 FEB: **Michael Keelan** is an experienced horticulturalist, radio FIVEaa presenter and regular contributor to 'SA gardens' magazine.
TOMATO CHALLENGE TONIGHT!

MON 17 MAR: **Tina Verey** from the Adelaide Botanic Gardens Diggers Garden shop, is also a tour guide for Botanica World Discoveries.

MON 14 APR: **Alan White** is from Antelco a SA company that manufactures micro irrigation components, including 'shrubblers'

MON 12 MAY: A speaker from the **Bromeliad Society** (To Be Confirmed) Bromeliads for sale.

TUE 16 JUN: **Winter Warmers** A meeting with a difference – we start at 6.30 with soup and crusty bread followed by delicious dessert then to watch Magic Harvest, a DVD by Tori Moreton.

NOVEMBER REPORTS

On Sunday November 3rd a bus full of our members took a trip to the Clare Valley where they visited Walter and Kay Duncan's Heritage Garden; a private garden of one of the members of the local Garden Club; and the Hobbies Fair at Melrose Park.

The November 11th meeting was at the Happy Valley Primary School on Education Rd with a talk by Wendy Nicholls who runs the Stephanie Alexander School kitchen garden, complete with free rain water supply and chickens for eggs and manure. It was an inspiring experience and amazing to see. The children have lessons in gardening, harvesting, cooking and presenting the food they have helped to grow.

Our Annual Rose challenge saw Lynette Wise win a prize for her beautiful sunny bright yellow "Friesia" rose which was Wendy's choice. Rules were; maximum of two entries – a single bloom with some foliage - must be in a stubby (preferably green) - name of rose displayed - and exhibitors name out of sight. As always our auction had some real treasures and bargains.

**CHERRY
CHURCH
NEWS**

ATHEISTS GET TOGETHER

In a recent TV interview an atheist described how many of them are now assembling on Sundays the way Christians do. They sing together, have readings, meditation and sermons in a similar fashion to a church service. Their spokesperson said they had taken all the good bits from religion and left out all the bad bits. He didn't elaborate on the bad bits.

There is something joyful about singing together and hearing inspiring stories and addresses. That's what they do at Rotary, Lions and other secular organisations. Atheists argue that religion and belief in God depend on faith, as though that's a problem. Belief that there is no God depends on faith also. You cannot conduct controlled experiments to prove your point either way.

A well-known US evangelist, Dr Harry Ironside, was challenged to a public debate by a noted US atheist. Dr Ironside said he would accept the challenge on one condition: that the atheist bring with him 100 people whose lives had been changed by atheism. In return, Ironside said he would bring 100 men and women whose lives had been changed for the better when they became Christians. The atheist withdrew his challenge.

Atheists can point to a pedophile priest or hypocritical Christian and generalise to all other Christians that what they believe must therefore be false. The failure of any Christian in any situation doesn't prove anything about the teaching of Christ, except that he set a very high standard that his followers strive towards and frequently fail to reach. Dr Ironside did not promise to bring along 100 perfect people: just people whose lives had changed for the better. There are T-shirts and bumper stickers that state "Christians are not perfect: just forgiven." That was the promise Jesus made to his followers.

Atheists would be on a much safer ground as critics of Christianity if they had actually studied it. Then they would also be better placed to decide whether God exists. They would also understand who Jesus was and how he tackled religious hypocrites in his day. His ministry was often to the marginalised and outcast members of society who saw that he could change their lives. He has been doing so now for 2000 years.

TENNIS CLUB

FOOTBALL CLUB

NETBALL CLUB

Ironbank Cherry Gardens Netball Club is always looking for new players, coaches and umpires.

If you are turning 7 years old in 2014 or older you are eligible to play for season 2014.

Upcoming dates:

Junior Registration Day Sunday 2nd March 2014 at 10am followed by our AGM at 12 noon.

Preseason Fitness will start on Thursday 6th February at 7pm. All our players are welcome to join in.

Meadows Vet News

Summer Worries

With hot weather there are a multitude of problems for our pets and farm animals most of which need early intervention to prevent the development of more serious conditions. These problems include:

Heat Stress. Dogs and cats pant to lower their body temperature – they do not sweat like humans. If your pet is overheated you may notice: excessive panting, salivating, vomiting, diarrhoea, increased heart rate, seizures or strange behaviour, overly red or purple gums, coma or even death within a few hours

Snake bites. Symptoms include hind leg paralysis, dilated pupils, sudden weakness followed by collapse, shaking or twitching of the muscles, vomiting. Please note that not

all animals show the same symptoms and some may not show symptoms initially. If in doubt phone us for advise Swellings caused by insect bites and stings.

Excessive scratching which can be caused by a number of things including allergic reactions. Grass seeds in eyes, ears, paws noses and skin

Reminders

Keep on top of flea treatments so that fleas do not get the chance to become a major problem. All of our flea products are very competitively priced (some are even cheaper than those available on line!) to ensure you receive the correct advice and information for what is best for you and your pet!

Ensure all animals have access to plenty of fresh drinking water—always check that the float valves in automatic troughs are in working order

Make sure you have a Bushfire Plan that includes your pets and animals

There has been an outbreak of Parvo Virus in the northern suburbs and to the north of Adelaide again so please check your dog's vaccinations are up to date.

Adelaide is also suffering from swarms of mosquitoes thanks to the winter rains. As mosquitoes are the carriers of Heartworm now is a good time to ensure your pets are protected against this disease. Remember that pets over the age of 6mths need to be tested before any Heartworm Prevention is started.

Horse owners be aware if you suspect your horse has conjunctivitis, we cannot sell antibiotics over the counter. There are a number of conditions that falsely appear to be conjunctivitis. Using the wrong medication in an eye can lead to very serious conditions such as Melting Corneas and possibly the loss of an eye. Eyes are very important and need to be seen to be treated correctly for the best outcome.

Tinsel, ribbons and glass ornaments are often eaten by pets, causing intestinal damage or obstruction – please keep Christmas wrappings and decorations out of reach Many Christmas treats for humans are poisonous to our pets. These include chocolate and macadamia nuts!

Finally we would like to wish all of our clients and their pets and animals a very Merry Christmas and a Healthy and Happy New Year. As usual we will be providing an emergency service over the Christmas/ New Year holidays. If you have an emergency just phone the Centre's number and you will be diverted to the veterinarian on duty. Remember to keep up to date with the latest news you can follow us on Facebook www.facebook.com/MeadowsVetCentre.

We know it can be hard to work out whether volunteering is for you, so we'd like you to 'come & try' first.

No commitment - just come and see what we do, join in if you wish, then decide later if you want to book into one of our Introductory Bush Regeneration workshops.
